

M. Braun Inc. Appoints Labotal as New Representatives in Israel

M. Braun Inc. announced today new representation network by appointing Labotal, a manufacturer's representative firm in Israel, as its exclusive distributor in Israel.

Stratham, NH, July 1, 2016 (Press Release) - In an agreement announced today, Labotal will be responsible for sales and marketing in Israel of MBRAUN's complete line of inert gas gloveboxes, gas purification systems, vacuum deposition equipment, isolators, ovens, solvent purifiers and custom system solutions.

"We are very excited that Labotal will be representing MBRAUN in Israel. Labotal's existing product knowledge and superior support network in their market offers our customers with improved experiences using MBRAUN products and services," says Michael Boutin, Sales Director at MBRAUN

About Labotal - Established in 1975, Labotal is one of the leading Israeli representing companies of high-tech manufacturers worldwide in the University, Medical, Pharmaceutical, Electronics, Chemical and Petrochemical market sectors. Over the years, Labotal keeps bringing the Israeli research and industry the most advanced and innovative solutions, without compromising on reliability and professional support over time. Additional information on Labotal principals and services can be found at <http://www.labotal.co.il/>

About MBRAUN - Whether your work involves gloveboxes, inert gas purification, thin-film technology, isolators or custom system solutions in clean environments, MBRAUN has the right solution for you. We're the global market leader in providing customer-specific controlled environment solutions. We continue to develop world class core technologies and then adapt them to an application, yielding the most efficient clean environments based on our intimate knowledge of the many markets we serve.

Both Labotal and MBRAUN employees share in the vision of creating a world-class company that can be your #1 creative partner. Our team works closely with you to tailor products and services that meet your clean environment needs.
