

## Press Release

### **MBRAUN Announces New South Central Region Systems Specialist**

**Stratham, NH (June 24, 2013)** – MBRAUN is proud to announce its newest service office location in the south central region of the United States. Mike Morell has officially accepted the position of South Central Regional Systems Specialist.

As the South Central Regional Systems Specialist, Mike will be responsible for the installation, training, and supporting of MBRAUN's ever growing product line. His territory will cover the lower mid-west region of the United States including Texas, New Mexico, Oklahoma, Arkansas, and Louisiana. Mr. Morell will be an integral part in developing on-site training programs and installations as well as overseeing the up keep and maintenance of existing systems in his assigned territories.

"Mike Morell has been a valuable employee of MBRAUN for many years and his presence in the south central region helps MBRAUN provide customers with improved service capabilities," says John Caddle, Service Manager at MBRAUN.

Mr. Morell moves to the south central region with over 6 years of direct inert gas glovebox experience at the MBRAUN USA Headquarters located in Stratham, NH.

#### **About MBRAUN**

Whether your work involves gloveboxes, inert gas purification, thin-film technology, isolators or custom system solutions in clean environments, MBRAUN has the right solution for you. We're the global market leader in providing customer-specific controlled environment solutions. We continue to develop world-class core technologies and then adapt them to an application, yielding the most efficient clean environments based on our intimate knowledge of the many markets we serve.

MBRAUN employees share in the vision of creating a world-class company that can be your #1 creative partner. Our team works closely with you to tailor products and services that meet your clean environment needs.
